

Grade 3

Core Knowledge Language Arts

Listening & Learning

Organization Guide

IMPORTANT NOTES

CK Language Arts Listening & Learning vs. CK Language Arts Skills: The Core Knowledge Language Arts curriculum is split into two strands: Listening & Learning and Skills. Each strand has its own set of curriculum. Both strands are required for a full language arts curriculum. The organization information below is for the Listening & Learning strand. All Core Knowledge Grade 3 curriculum can be downloaded here: <https://bit.ly/31Mqr6m>

1st vs. 2nd Edition Materials: Please note, the support materials available from HomeschoolWorkplans.com are specific to the 1st edition CKLA curriculum which is available to download for free on the Core Knowledge website. CK's partner Amplify offers 2nd edition materials and homeschooling families can purchase hard copies of those 2nd edition materials directly from the Amplify website (there is no "free" option for the 2nd edition materials). If you choose to use the 2nd edition materials, you may need to make significant changes to the schedule and prep information provided by HomeschoolWorkplans.com. There is no advantage to using the 2nd edition materials beyond the option to purchase preprinted copies online. We recommend using the 1st edition curriculum so you can take full advantage of these support materials.

FREE RESOURCES

How-to Videos: Watch the videos to learn to use the CKLA Listening & Learning curriculum to homeschool: <https://bit.ly/3JV7eR3>

Unit-Specific Prep Checklist: Includes notes for each unit of the curriculum including which Instructional Masters (activity pages) to print, library books that may be needed, required advanced preparation broken out by lesson, as well as a list of additional unit-specific supplies. Click here to download the CKLA Listening & Learning Grade 3 Unit-Specific Prep Document: <https://bit.ly/3f9TljQ>

Daily Schedule: A free daily schedule for homeschooling Grade 3 using the Core Knowledge curriculum and MEP Math curriculum is available here: <https://bit.ly/3q8FmB3>

PRIMARY MATERIALS

Units: There are 11 units in the Grade 3 CKLA Listening & Learning curriculum. All students start with Unit 1 and progress through the units in order. You will download each unit separately from the CK website. Each unit will be downloaded as a file folder containing multiple files including the Anthology (Teacher's Guide), Flipbook, and Image Cards.

Anthology: The Anthology functions as the Teacher's Guide for Grade 3 CKLA Listening & Learning units. When you are ready to start a lesson with your student, you will simply open the PDF file for the Anthology on your tablet or laptop, navigate to the lesson indicated on the daily schedule, and work through the instructions in the Anthology for that lesson.

Flipbook: This flipbook contains the images that go along with the stories that will be read to the student using the Anthology. This flipbook can be accessed as a PDF file on your student's device.

Image Cards: The Image Cards are a separate file located in the folder of files you downloaded from the CK website. The Anthology will specify when to use these cards during the lesson. You do not need to print the image cards. The file can simply be accessed from your device or your student's device when needed for a lesson.

GETTING ORGANIZED

Lesson A and Lesson B Scheduling: Most lessons are divided into two parts: A and B which are both completed in a single school day. Lesson A should be completed first and Lesson B should be completed later in the day.

Please note, some lessons include a third part which involves a writing assignment. This third part of the lesson should be completed the same school day as Lesson A and Lesson B.

Instructional Masters: These are the activity pages for the units and are found in the back of the Anthology for each unit. More information will be available in the unit specific prep checklists (<https://bit.ly/3f9TljQ>). It is generally easiest to print all the Instructional Masters at the beginning of the unit, even if you don't end up using all of them.

Tell It Again! Posters: These are located in the back of the Flipbook for that unit. The Anthology will specify when to use these posters during the lesson. You do not need to print the posters. You can simply navigate to them in the Flipbook file when needed for a lesson.

Catch-up Days: Catch-up days have been scheduled for you. If you do not need a catch-up day you can choose to read a library book related to the unit or enjoy a lighter school day.

Pausing Points: Pausing points are a day set aside for catching up on material, reviewing and reinforcing material, or extending material taught so far in the unit. They typically occur in the middle and/or at the end of the unit. When you reach this point in the schedule, the PP section of the anthology will list out several options for activities. It can be helpful to review the activity options in advance to do any prep work or gather needed supplies. Remember, you will be choosing one or maybe a handful of these activities to do—not all of them. If you are running behind on lessons when you reach a pausing point, use that day to catch up. The activities listed in the PP are just suggestions and are not required for your student to move forward.

Domain Assessment: At the end of each unit is a day set aside for domain assessment and these are an important part of each unit. This information learned during the assessment can then be used to review with the student as they move into the next unit.

IMPORTANT TIPS

Library Books: Whenever possible, please select several of the recommended books from the unit's resource list (part of the introduction in the Anthology) and request them from the library in advance. These books can be used as time allows, when specifically called for in a lesson, or can be left out for your student to read on their own in their free time. If library books are not an option, YouTube often has videos of books being read aloud and these can be used as an alternative.

A number of lessons throughout the school year suggest using library books during the lesson. The Unit-Specific Prep document notes when these are needed and that document can be downloaded here: <https://bit.ly/3f9TljQ>

Writing Assignments: Grade 3 is the first time specific research and writing activities are incorporated into the CK Skills curriculum. Not all units include separate writing assignments but those that do typically have the assignments scheduled for the final week in the unit. Please see the introduction section of the unit Anthology for more information about the writing assignments.

Above and Beyond Assignments: Lessons may sometimes include extension activities designed for students working above grade level. These activities are identified with the arrow icon and more information can be found on pg. 10 of the Unit 1 Anthology.

Classroom-Based Activities: Some activities in this program are clearly designed for a classroom setting. Please adjust the activity as needed for your situation. For example, for an activity that suggests students work in teams, you can act as your student's teammate. For activities that involve putting on a play or presentation, your student can present one part of the information or you can make the activity a family activity and involve siblings, etc.

Topic Duplication: You may notice what appears to be duplication between topics in the CKHG lessons and the CKLA lessons. This is intentional and provides the opportunity to reinforce key concepts by approaching them from multiple perspectives. For example, a student will have a history lesson about Ancient Rome and then maybe a few weeks later will also study Ancient Rome in a CKLA lesson.
