

Kindergarten

Daily Schedule

This daily schedule has been developed for a 180-day (36-week) school year utilizing the free Kindergarten curriculum available through The Core Knowledge Foundation (www.coreknowledge.org) and the free MEP Math Year 1 (Kindergarten) curriculum available through the Centre for Innovation in Mathematics Teaching (<https://www.cimt.org.uk/projects/mepres/primary/index.htm>).

Free Resources: Additional free resources including videos, curriculum download instructions, planning and organizing checklists, and supply lists to support this daily schedule can be found at HomeschoolWorkplans.com.

1st vs. 2nd Edition: Please note, the support materials available from HomeschoolWorkplans.com are specific to the 1st edition Core Knowledge Language Arts and Core Knowledge Skills curriculums which are available to download for free on the Core Knowledge website. Core Knowledge's partner Amplify offers 2nd edition materials and homeschooling families can purchase hard copies of those 2nd edition materials from the Amplify website (there is no "free" option for the 2nd edition materials). If you choose to use the 2nd edition materials, you may need to make significant changes to the schedule and prep information provided by HomeschoolWorkplans.com. There is no advantage to using the 2nd edition materials beyond the option to purchase preprinted copies online. We recommend using the 1st edition materials. This concern does not apply to the Core Knowledge Science and History and Geography curriculums as both are available in only one edition which is free to download from the Core Knowledge website. We recommend using the 1st edition curriculum so you can take full advantage of these support materials.
